

GREENWOOD COUNTY

Getting children ready for school.

Parents as Teachers

Child Care Training

Fatherhood Initiative
"Real Fathers are Dads"

Annual Report

2015-16

OUR VISION:

Every South Carolina child
arrives at kindergarten
ready to learn.

First Steps WORKS for the children of GREENWOOD County.

By The Numbers

Indicator	SC	Greenwood County
Children Under Five	289,990	4393
Children In Poverty	26.4%	33.1%
3 rd Graders Below Standard in Reading	21.1%	25.4%
Births to Mothers With Less Than a High School Diploma	15.7%	20.9%

- Since inception, Greenwood County First Steps has leveraged \$1,614,018 from sources outside state government. That's \$.41 for every dollar received.
- 340 hours of support and guidance were provided to 31 families in our Parents As Teachers Program.
- Childcare professionals received 32 hours of technical assistance for early care best practices.
- Improved parenting practices through 36 Group Connections Parent Workshops.
- **Total Children Served in FY16: 1003**

Greenwood County First Steps Michael Gaskin, Executive Director

Greenwood County First Steps uses an innovative and creative approach to ensure every dollar received by the County Partnership is used to its maximum potential. Getting children ready to learn is an engagement that requires every agency within this County to understand the importance of being not just stakeholders, but passionate, dedicated, and committed stakeholders. The Greenwood County First Steps Full Partnership Board makes "high quality" the key word to determine why a program should continue to receive First Steps' funding. The service quality of Greenwood County First Steps' programs grew tremendously with the addition of great local and state partnerships. The Department of Social Services, Guardian Ad Litem Programs, and the local court systems are also great partners, to reach the most at risk children in the community and assist with preventing child abuse and neglect. Lander University's Education Department is another great partner. Greenwood and Abbeville County First Steps offer two Early Childhood Conferences a year at Lander University. Professors in the Education Department teach the classes as a part of their community outreach, and students assist as room monitors and with registration. These great partnerships are success stories displaying positive impacts in the communities of both Greenwood and Abbeville Counties. Through these successful partnerships, Greenwood County First Steps offer children and families comprehensive services for school success.

WE MADE A HUGE DIFFERENCE BY BECOMING THE DIFFERENCE FOR GREENWOOD COUNTY CHILDREN!

What We Do

Each of the six color blocks of the First Steps logo represents a core area of service, outlining our comprehensive strategy to prepare children for long-term school success.

With **measurable outcomes across each of its six school readiness strategy areas**, First Steps is getting results.

Healthy Start

We begin with a focus on providing a healthy start to life. This includes prenatal and post-partum services for both mother and baby. In 2007, First Steps collaborated with key philanthropic and agency partners to bring Nurse-Family Partnership to SC having a significant impact on reducing premature births and Medicaid costs.

Quality Childcare

Quality childcare starts with quality childcare providers. Our quality enhancement and training strategies lead to improved teacher-student interaction, which research shows has a significant impact on a child's development and success in school.

Family Strengthening

Our home visitation strategies, such as Parents as Teachers, Parent-Child Home and Early Steps to School Success, are helping parents understand their responsibilities to care for and be positive models for their children. As a result of First Steps' intervention and parenting support, 66% of clients initially assessed at "low" levels of parenting have achieved moderate or high levels of parenting skill.

Early Education

Private-public partnerships through First Steps 4K have led to significant cost efficiencies in the delivery of publicly funded 4K. One recent analysis suggests First Steps is achieving comparable results, without the need for costly capital construction, for 80 cents on the dollar.

Early Intervention

According to recent federal evaluations, outcomes for clients participating in BabyNet early intervention programs are above national averages. BabyNet matches the special needs of infants and toddlers who have disabilities and/or developmental delays with customized, community-based resources.

School Transition

Each of the corresponding blocks of services leads ultimately to the goal of transitioning children successfully to school. Programs like Countdown to Kindergarten and From Day One to Grade One are ultimately preparing children for school success.

Based on the needs of our community, Greenwood County First focuses its investments in Family Strengthening, and Quality Childcare.

Parents as Teachers

Parents play a critical role in their child's development.

Program Description

The Parents as Teachers (PAT) model is an evidence-based early childhood home visiting framework for families with children prenatal through kindergarten entry that builds strong communities, thriving families and children who are healthy, safe and ready to learn. PAT services include:

1. **Personal Visits** minimum twice monthly in the client's home
2. **Group Connections** with other PAT families at least monthly
3. **Screenings and Assessments** to identify issues early
4. **Resource and Referral Network** connecting families to needed resources

Our PAT program:

- ✓ Increases parent knowledge of child development and improves parenting practices
- ✓ Provides early detection of developmental delays and health issues
- ✓ Prevents child abuse and neglect
- ✓ Increases children's school readiness and school success

GREENWOOD First Steps serves families in greatest need. Among our PAT families:

- 57.69% ... live in poverty
- 38.46% ... didn't graduate high school
- 7.7% ... were teen parents

PAT by the Numbers 2015-16

Families Served	26	
Children Served	36	
Total Home Visits	281	
Hours Spent Serving Families	325	
Average gain, <i>Keys to Interactive Parenting Scale</i> (pre-to-post):	KIPS 2.84	KIPS 3.81

This year, our Parents as Teachers program:

- ✓ Averaged 2.0 home visits per family
- ✓ Identified and addressed 8 potential developmental delays
- ✓ Made 80% connections for families to services such as Hearing, Vision, Employment, BabyNet, Food, Housing, Benefits bank, and Fatherhood services.
- ✓ Enrolled nine continuous months in the PAT program: 61.54%
- ✓ Unsuccessful visits - 0!

Child Care Training

Those who care for young children need high-quality, accessible, and affordable professional development.

The conference was awesome! The presenters kept everything fun and entertaining. I will be attending again next year.
U. Best

Program Description

Efforts to improve the quality of child care must include providing affordable, high quality training that meets the needs of the local child care workforce.

First Steps-sponsored training is certified through the SC Center for Child Care Career Development and includes topics in the areas of nutrition, health and safety, curriculum, child guidance, professional development and program administration. Best practices in training include not only the training, but also follow-up with supported practice in the classroom.

**Child Care Training Sponsored by
 GREENWOOD First Steps, 2015-16**

Topic Sessions:

Professional Development	3
Safety	3
Special Needs	3
Curriculum	4

FATHERHOOD INITIATIVE

Why is this program important?

85% OF ALL YOUTHS SITTING IN PRISONS GREW UP IN A FATHERLESS HOME

Program Description

The County Partnerships' Fatherhood Initiative was piloted in FY13 and the program acceptance was extremely promising. More than 15 clients appeared on a monthly basis and 30% still continued to participate after their compliance period was approved. The Fatherhood Initiative's current results and planned results are below. The Protective Factors Survey is utilized on all families to measure the pre and post results on concrete resources, family support, family resiliency, parent knowledge, and child development. In addition, the Parents As Teachers Parent Knowledge Survey is an additional tool utilized to measure parent knowledge for pre and post results. All surveys are administered at the initial meeting and then within 6 months of receiving program services.

1. Improve the receptive vocabulary skills of participating children
2. Enhance engagement in responsive, language experiences among participating parents.
3. Increase father involvement
4. Provide extended services for the Parents-As-Teachers Curriculum
5. Reduce abuse and neglect

GREENWOOD First Steps serves families in greatest need. Among our Fatherhood families:

89% ... live in poverty
 27% ... didn't graduate high school
 77.27% ... single parent home

Changing the World By Changing Me!

Parents-As-Teachers

Ain't No Stopping Me Now!

Ashley Gauvin entered the Parents As Teachers program in July of 2013 (exited 2016). She is the single parent of three daughters. At the time of Ashley beginning the program, she did not have custody of her daughters. She was unemployed, and lived in the home with her father and her mother cared for her children. Ashley was referred to Goodwill Certified Nursing Assistant program by her Parent Educator. She attended classes for six weeks at Piedmont Technical College, passed the certification exam, and is now a Certified Nursing Assistant. Ashley is attends Piedmont Technical College online courses and works as a part-time nurse's aide with Always Best Care. She is no longer living with her father. She obtained a home for her and her children. (Exited 2016)

"Thank You for all you have done to assist me and my family. We greatly appreciate the time and effort put forth to make a difference in my family's life."

Logan

Overcoming Barriers!

Guadalupe Aquilera has been in our program for several years (exited 2016). Guadalupe has a daughter Paola Carmona who was 24 months at the time. In our first few sessions we identified a need for English to be reinforced in the home, sibling sharing techniques, and a need for structured discipline. Guadalupe also has a son (Hugo) that was aged four at the beginning of our sessions. Hugo has been diagnosed with ADHD. Some of his behaviors included the taking of his sister's toys and interrupt our whole session at each visit. For consistent discipline, the mother worked with Guadalupe on using time out in a chair instead of removing Hugo or Paola to the bedroom. Once in the bedroom, Hugo in particular, would just make loud noises and bang on the door. Hugo had already increased his English usage in his 4K classroom. Guadalupe was determined that Hugo would be a great asset if we included him in Paola's learning. Paola hardly spoke English at all. Between the consistencies that Guadalupe applied to her new discipline style, using the curriculum in a beneficial way to enhance sharing techniques, emphasizing Spanish to English and English to Spanish word learning, and concentrating on reading readiness. (Exited 2016)

First Steps Partnership Board

True Collaboration Makes the Difference

Greenwood County First Steps in partnership with Abbeville County First Steps has had many success stories in the community. Great partnerships have been formed across county lines to save costs administratively, and to serve more families and children in the community. The Greenwood and Abbeville County First Steps Boards have supported the two agencies with sharing office space to saving administrative costs to direct more funding into programs to serve families and children. This successful partnership has had tremendous cost savings for both agencies and became a model to share with other agencies.

Greenwood County First Steps was offered to partner with a new extremely successful venture, the Social Change Initiative (SCI). This collaboration has provided the two entities the opportunity to serve entire families instead of just families with children 0-5 years of age. More than 42% of the families served by Greenwood County First Steps alone are in both programs. Moreover, the Social Change Initiative is partnering with Greenwood County First Steps to incorporate a fatherhood initiative, Real Fathers are Dads in Greenwood County. The cost to the County Partner....\$50! Yes! Fifty Dollars!

To add the alamo to a "perfect partnership" GCFS and SCI combined office space! This one location is a hub for these amazing entities: Greenwood County First Steps, Abbeville County First Steps, and the Social Change Initiative. If that is not enough, Lander University's Early Childhood Department conducts classes at this location weekly, and the Lander University EC professors' provide FREE workshops at our Joint Child Care Conferences! Students learn from an actual Parents-As-Teachers Home Visit by parents and children in the County Partnership's program!

What will the Greenwood County First Steps Full Partnership Board do next? Well, wait until you read what they have planned for FY17!

Getting children ready for school.

The Goals of First Steps

- (1) Provide parents with access to the support they might seek and want** to strengthen their families and to promote the optimal development of their preschool children;
- (2) Increase comprehensive services** so children have reduced risk for major physical, developmental, and learning problems;
- (3) Promote high-quality preschool programs** that provide a healthy environment that will promote normal growth and development;
- (4) Provide services** so all children receive the protection, nutrition, and health care needed to thrive in the early years of life so they arrive at school ready to succeed; and
- (5) Mobilize communities** to focus efforts on providing enhanced services to support families and their young children so as to enable every child to reach school healthy and ready to succeed.
